Bureau of Statistics has been issuing this Monthly Survey of Industrial Production & Employment report since December, 1975. This report provides important statistics in respect of industrial production and employment. This report contains statistics regarding 31 selected large scale industries covering 598 industrial establishments in Sindh.

This report provides information regarding index of industrial production as compared to base year

1980-81, and comprehensive analytical notes over the current status of the industrial growth at different sectors. Tables & Graphs of Production and Employment give comparisons with the previous month and the same month of the previous year as well.

Finally, I do appreciate the hard work and utmost efforts of officers and officials of Bureau of Statistics for bringing out this publication and their determination to issue this valuable publication. I hope that this report will be useful to the policy makers, planners, researchers, students and other users of industrial data in public as well as private sector.
